

Do your drivers Drink Drive?

Are you confident to manage Drugs and Alcohol in your workplace? How much do you and your employees know now. Is it sufficient for you to cover your Health & Safety requirements?

**DRINK DRIVER
EDUCATION PLUS**

Registered Charity No. 1120072

We offer an exclusive method of finding out what you and your employees currently know about drink driving, particularly the 'morning after' when 1 in 5 drink drive offences occur, on the way to, or at, work. That's when they may be of more concern to you.

We will bring our display to your premises (we only need a space 1 metre x 2 metres) and ask your employees a few simple questions -

"Imagine you went out for a meal at 9pm last night, started with a pint of lager, or if you prefer a G&T, enjoyed 3 glasses of wine during the meal and finished off with a whisky.

*You wouldn't drive home of course but **when** would you be alcohol FREE and fit to drive this morning?"*
3am - 6am - 11am - 3pm

Get it wrong and your licence or even your life may be at risk!

All of your people who get this right can go into a draw for a bottle of champagne. (optional) We will enquire into their knowledge about your Policy and other key issues we will agree beforehand.

At the end of the exercise we will report the level of knowledge in your workforce and offer you a number of solutions.

We can then show your drivers how to protect themselves and others through our interesting and interactive learning sessions. We want to explain the 'numbers' – how long a pint of Kronenbourg, a bottle of Magners or a glass of wine takes to process, how long before you are alcohol FREE and therefore fit to drive. How do drugs affect your driving ability and vulnerability to prosecution?

What will it cost? As a charity we are not expensive – you can have ½ day or 1 day – see pricing page.

What do others say?

We value the enthusiastic approach and their wealth of experience in the subject. If you are keen to come at the Drink Drive topic from a slightly different, far more realistic, direction then I'd recommend you get in touch.

Julie Jones, Road Safety Officer, Oxfordshire County Council

"I congratulate you on your 'toolkit' DVD on drink driving the morning after. While the Department for Transport is always so shy to talk about the length of time it takes for alcohol to leave your system, you have addressed it with clear, concise information for drivers." Mary Williams OBE, BRAKE the Road Safety Charity
